

The Bee's 1922 fiction service will consist of a complete novel, written by the best known authors, every two weeks. To get the ten comics that appear daily in The Bee it would require the purchasing of at least three Metropolitan papers. Associated Press service.

DANVILLE, VA., SATURDAY AFTERNOON, FEBRUARY 4, 1922

PRICE: TWO CENTS

Young Actress Now Suspected

Suspicion in Connection With Taylor Murder Directed Toward Movie Player and Another Film Director, Both Unnamed.

(By The Associated Press)

LOS ANGELES, Feb. 4.—The mystery surrounding the shooting to death of William Desmond Taylor, motion picture actor, whose real name it is alleged, was William Deane Tanner, remained unsolved today.

The police claimed that suspicion was directed toward a young motion picture actress whose name they withheld and through her toward another film director, likewise unnamed by them.

WAS ONCE ENGAGED TO MARRY NEVA GERBER

(By The Associated Press) LOS ANGELES, Feb. 4.—Neva Gerber, film actress, said she had broken off her one time engagement to marry William Desmond Taylor, slain motion picture director because both believed it an unsuitable match.

Commits Suicide Standing On Street

WASHINGTON, Feb. 3.—Singing a bullet from a .32 calibre revolver through his heart, an unidentified man about 25 years old ended his life at fifteenth and B streets, northwest shortly after midnight, leaving no reason for his actions.

Park Policeman E. B. Culumber and F. G. Kitchen heard the shot and peering from their station on the corner saw the body fall to the snow drift. The man had been leaning against a tree.

Park marks upon his gun supported the theory that the shooting was a suicide. Dr. Lane of the emergency hospital staff was summoned and pronounced the man dead.

The boy died in a dark suit, stock hat, black shoes, and about 7 feet 7 inches in height, smooth faced and well developed. He was removed to the mortuary morgue where Coroner Nease will conduct an investigation.

Interesting Data On Early Warehouse

NEW BERN, Feb. 4.—That the first tobacco warehouse built in North Carolina was erected at Belhaven, 12 miles from New Bern, in 1734, was a part of the interesting information found by a newspaper man here today in delving among a lot of old papers in the office of Squire Samuel H. Street on South Front street. The second warehouse according to this authority was built in New Bern two years later. John Bryan, a New Bern man, was the first official tobacco inspector appointed by the state.

Police Working On Stolen Cars

Charlotte, N. C., Development Eagerly Watched Here — Insurance Company Investigator Makes Hurried Trip to Danville.

That the Danville police department is quietly working on the theory that organized car thieves have a branch of their business in this city could be seen this morning when inquiries were made at the police station and of one an employe insurance agent who has been closely associated with the chief of police for the past month or six weeks. It was even intimated that not of circumstantial evidence might be closing in here which might in the near future lead to an arrest.

Chief of Police Bell said that the Charlotte, N. C., authorities have not thus far communicated with him in any way relative to the arrest of a group of men in that city, among them Lewis Slavton, formerly of this city, who is held in jail in default of a \$10,000 dollar bond. At the same time it was learned in other quarters that a representative of an automobile insurance agency was in Danville yesterday evening and last night, when he spent some of his time at the courthouse. Police Officer W. T. Kessler was one of the Danville officers who met him. Kessler said that as he represented the man's name was Scott. Chief of Police Bell did not know the man's name as he did not meet him. Scott, however, was here from Charlotte, and apparently was in possession of information of a性质 bearing on the theft of automobiles, their removal to distant cities and their conversion there into ready cash to a quick purchaser. It is for this reason that the insurance representative was so interested in the investigation at Charlotte, especially as car thieves have become a serious matter and is resulting in the paying out annually of many thousands of dollars to insured persons.

A. Frazier today said that the agent from North Carolina here last night told him that his stolen car

had been found. Frazier collected over \$1,500 insurance from Keeling Brothers, with whom the stolen machine was insured. Frazier said that he had no further interest in the car now, since he has received his insurance money and the car automatically becomes the property of the insurance concern.

It was also learned that as far back as six weeks ago Mr. Keeling received word that Frazier's car could be found in a garage at Greensboro, N. C. Thither the agent went, but found there was no such garage as named. It now transpires that the garage was at Charlotte, and not Greensboro.

The failure on the part of the Charlotte police department to notify the Danville department of developments was not thoroughly understood today. Mr. Keeling stated that he thought that the situation warranted the sending a member of the Danville police department or an automobile man familiar with recent car thefts in Danville to Charlotte to pick up leads there, in the hope of being able to trace other cars which have been stolen under mysterious circumstances from Danville of recent months. While it is true that in many of the cases of larceny, the stolen cars have been later recovered, abandoned on the roadside, many of those stolen have disappeared as though into thin air and have never been recovered.

Questioned this afternoon Mr. Bell admitted that the police department had been working for some time on stolen automobiles, but at this time he had nothing to report.

During the past year several thousand dollars have been paid out by the fifteen local automobile agents in insurance on stolen cars.

Relatives of Mr. Slavton who is being detained in Charlotte, last night for that city to be with him and to give the required bail bond.

Women To Help Y. M. B. C. In Drive

A group of young ladies were today enlisted to help the Young Men's Business Club in their preparation for the membership campaign which opens on Thursday next and continues for one week.

A club smoker will be given on Wednesday next in the Elks' auditorium for all members.

C. A. Frazier today said that

Expert Tells What Genoa Conference Means to The U. S.

(This is the second of two articles by a recognized expert discussing the coming world economic conference at Genoa.)

BY J. W. T. MASON
Expert on International Relations

WASHINGTON, Feb. 4.—The European nations want the United States to attend the Genoa conference for the purpose of helping Europe before Europe knows what kind of help it wants.

So much confusion reigns in the European chancelleries and embassies among the allies themselves are developing so rapidly that Europe wishes Uncle Sam to become an international Judge Lands.

Genoa has been picked as the place for America to summon the Babe Ruths of the European leagues for judgment.

But the Europeans want to reserve the right of rejecting America's findings at will. Uncle Sam is desired to invent a new kind of arbitration that will make everybody a winner and nobody a loser.

The United States has no power to enforce verdicts in European affairs. America has no more influence in Europe than any other nation. There is no such thing as American world leadership.

The United States, in an active role at Genoa, would make enemies faster than it made friends if it started to umpire the base stealing that is going on over there.

U. S. As Santa Claus
Should Uncle Sam take a shipload of gold to Genoa and pass it out to all comers, he would be unanimously popular as long as the gold lasted. But thereafter his words of admonition would be lost amid the rival ambitions of the trans-Atlantic powers.

American experts have foreseen the present European impasse ever since the signing of the Versailles treaty. Dr. Poincaré prophesied it, too. The British people are not trying to find a way out by means of a general consumption of international trade and slow recovery of prosperity all around.

This is the way nations have had to save themselves in the past. It is the

way Europe eventually must take. But America cannot force the pace over there.

America learned about the obstinacy of Europe at the Washington conference, when land armaments came up for discussion. What couldn't be done at Washington can't be done at Genoa.

"Watchful Waiting" Needed.

All the United States can do is to wait until nature takes its course. That is to say, until the continental powers of Europe learn by experience how disastrous is their policy of keeping alive war embattled.

The United States is as helpless as present to do anything for Europe's general recovery as Great Britain is.

If Germany and Russia were encouraged to get back their economic strength, as the Genoa conference originally intended, there would be less unemployment in America.

Germany and Russia would be able to buy more goods from the United States and Americans now idle would find work to do. For that reason America would have an important interest in the Genoa gathering if there were any hope that common sense would prevail there.

But, that hope became dim when the nationalists obtained power in France, and the imperialist leader, ex-President Poincaré, became premier. The Genoa conference cannot accomplish any good purpose unless all the powers attending are in agreement on the vital matter of co-operation.

France has vetoed co-operation with Germany and Russia. America at Genoa would be able to do little more than explain the plain facts of political economy, which require co-operation with Germany and Russia as soon as possible. That would do no good, because France wants not economic arguments but the Rhine.

After a while, bitter experience will disillusion France. Then a real Genoa conference can be held and America can help the movement of world co-operation. International trade will thereafter be stimulated and America's unemployed problem will begin to disappear.

No announcement of the change of plans has been made, and virtually no one outside the wedding party or about a dozen knew that the ceremony had taken place. Mr. and Mrs. Vonsatovsky left immediately after for her mother's home, Carolyn Hall, at Thomastonville, Conn.

Father Leonidas Perkewitch, who performed the ceremony, denied himself to callers afterward on the ground of fatigue and not even the names of the wedding attendants could be learned. Neither was it made known whether the bride's mother, Mrs. Norman B. Ream, or brother, Norman P. Ream, were present.

The bride previously had made known her objection to the publicity which was being given to the wedding plans, and it is believed that the ceremony was advanced in order

to avoid newspaper men and crowds.

Plans for the ceremony were made of curiosity-seekers that would Mrs. Vonsatovsky recently was undoubtedly drawn to the church in the Russian church and the pastor explained today that it was not necessary for her to be baptized at this time.

Some changes in the plans were foreshadowed early today when Mr. Vonsatovsky was summoned by a telegram to hurry from Philadelphia to the temporary home of his fiancée at the Hotel Chatham. There it was said, the young man had a long conference with Mrs. Stephens, her mother and her brother. After the conference, the bridal pair hurried to the Russian cathedral, where the

ceremony was held here a few nights ago.

The authorities are endeavoring to ascertain just what the ingredients of "joy gas" are. They also want to learn who filled the fire extinguishers.

The dance was a subscription affair and some of the best people in town were present.

There were plenty of the patented, medium-sized metal fire extinguishers hung conspicuously around the building. The party was duly chaperoned and "licker" was not in evidence, so far as any of the five senses could discern.

As the evening wore along, however, signs of intoxication became evident by the capers cut by the jizzers. Merrier and merrier grew the dancers. Hilarity superseded decorum, and finally an investigation was made.

In the women's dressing room were two empty fire extinguishers and in the men's dressing room three were found. It seems a visitor from the city was there. He whispered if the contents of this special make of fire extinguisher were poured into a vessel and the liquid sniffed deeply, the result would be a genuine jag. The boys put their girls friends wise.

The town council will have to see to it that the fire extinguishers and hereafter remove them before leasing it for a dance.

Wireless Found Aid in Recovering Autos

DETROIT, Feb. 4.—Following the plan of Chicago, every policeman in Detroit will be with him a miniature wireless telephone when experiments now being conducted by the signal bureau of the police department are completed.

"We have been unable yet to find a pocket set that would fit requirements and weigh little enough to be carried easily by the individual," declared Inspector W. J. Potts, superintendent of the signal bureau. "But within a few months we expect to develop just what we need."

"I consider wireless the greatest innovation in police work today," declares Police Commissioner Innes.

"Our new wireless enables us to keep in constant touch with cities in a wide zone. This is proving a great factor in locating stolen automobiles."

Mr. Gordon is inclined to agree with Senator Capper, who, in a statement, declared, after going over the ruins, that he believed the collapse of the theatre building was due to faulty construction, bad engineering, and probably inferior material.

Mr. Gordon reached his conclusion after experts had accompanied him to the theater ruins. However, the District Attorney refuses to make any comment as to responsibility, leaving that with the grand jury, which is receiving all the evidence given him.

Likewise Building Inspector John P. Healy, Engineer Commissioner Kell, and his assistant, Major Brown, have withheld their opinions and conclusions. They assert that sufficient evidence they have gathered will be placed before the coroner's jury.

Another who blames faulty construction as the cause of the collapse of the theater building is Congress man W. L. Tashjian, whose niece of seven is in a hospital recovering from injuries she sustained when the roof of the theater collapsed Saturday night.

Sailor Is Lauded for Heroism in Saving Pal

WASHINGTON, Feb. 4.—Chief Machinist's Mate Dewey Hobart Trivett, United States navy, is the latest sailor to be recommended by the Secretary of the Navy for a special reward for heroism in saving life.

Trivett sprang overboard from a launch he was commanding, while his ship, the *Trottern*, lay at anchor at Lisbon, Portugal, to rescue James H. Tarpley, another sailor who had fallen overboard.

Tarpley seemed unable to swim, and a swift current complicated the danger.

Trivett's home is at Peach Creek, N. C.

HEIRESS AND "LOVE NEST"

New pictures of Mrs. Marion Stephens, heiress to \$10,000,000, the man whom she married February 2, Anastase Andreyevitch Vonsatovsky, and their love nest in Philadelphia. The bride is a woman of 45, prominent in society; the groom is 23 and a laboree in the Baldwin Locomotive Works, getting experience to enable him to become a locomotive engineer.

MRS. STEPHENS HAS MARRIED HER RUSSIAN

The Wedding Had Been Announced for Four O'clock This Afternoon

NEW YORK, Feb. 3.—Mrs. Marion Buckingham Stephens, 45, Chicago heiress, and Anastase Andreyevitch Vonsatovsky, 23-year-old Russian workman of Philadelphia were married at 8 o'clock tonight in the Russian cathedral of St. Nicholas. The wedding had been announced for four o'clock tomorrow afternoon.

No announcement of the change of plans has been made, and virtually no one outside the wedding party or about a dozen knew that the ceremony had taken place. Mr. and Mrs. Vonsatovsky left immediately after for her mother's home, Carolyn Hall, at Thomastonville, Conn.

Father Leonidas Perkewitch, who performed the ceremony, denied himself to callers afterward on the ground of fatigue and not even the names of the wedding attendants could be learned. Neither was it made known whether the bride's mother, Mrs. Norman B. Ream, or brother, Norman P. Ream, were present.

The bride previously had made known her objection to the publicity which was being given to the wedding plans, and it is believed that the ceremony was advanced in order

Stranded Whale Makes Presence Known

OCEAN CITY, Md., Feb. 3.—Although hundreds of people are coming to Ocean City daily to have a look at the whale that is stranded on the beach here, Ocean City is beginning to be a bit worried about the whale. It is realized that the dead animal offers an attraction to compete with the Smithsonian Institution and is possibly in the class with the Luray Caverns of Virginia. Nevertheless the town is a little dubious.

Today was just the least. In the last hour and those who went to inspect the whale had to keep a little distance away. For the whale is beginning to give off a smell not exactly like violets, nor yet of the quality of sweet-scented lilies-of-the-valley. In fact, some of the residents are taking their Barbecue Room, Ballads, by Kipling, from their shelves, and reading just what it says about the Oint, or commercial caviar, of blessed memory.

Mine Telephones Not Safe Warns Washington Bureau

WASHINGTON, Feb. 3.—Coincident with the disaster in the Gates mine of the H. C. Frick Coke Company near Brownsville, the Bureau of Mines today issued a warning that mine telephones are unsafe. The bureau declares that the telephone now in use is capable of igniting gas and causing disastrous explosions. The ignition does not come from the current used but from the ringing of the magnetico in the telephone box.

NEGRO UNIVERSITY WILL CHANGE ITS NAME

CHARLOTTE, Feb. 3.—Change of the name of Eiddle University to "Johnson C. Smith University," as a memorial to the late Johnson C. Smith, of Pittsburgh, Pa., was announced tonight by Dr. H. L. McCrory, president of the institution, which is maintained for negro education by the Northern Presbyterian church.

The decision to change the name was based, Dr. McCrory explained, upon an agreement by Mrs. Johnson C. Smith who has already given \$115,000 to the institution to bequeath a large amount to the university in her will. The \$115,000 donation is to be used in a building to replace one recently destroyed by fire. Dr. McCrory said, and added that a great granite arch will soon be erected at the entrance to the campus bearing the inscription "The Johnson C. Smith University."

JOHNNY DUNDEE IS RETURNED WINNER

NEW YORK, Feb. 3.—Johnny Dundee, world's junior lightweight boxing champion, tonight defeated Joe Benjamin, of San Francisco, receiving the judge's decision at the end of their 15-round bout in Madison Square Garden.

Dundee sent Benjamin sprawling to the canvas with a right swing in the sixth. Joe was game, however, getting up and wading off a fierce body attack. Benjamin came back strong in the seventh, which was actually afraid they would snap in two.

"But Tanlac has brought about a wonderful change in my condition. My appetite is almost revenous, my digestion is perfect and I feel as well and strong as I ever did in my life. I never dreamed there was as grand a medicine as Tanlac in the world."

NOTE—The International Proprietary Co., distributors of Tanlac, have on file in their offices at Atlanta, Georgia, over fifty thousand signed statements from representative men and women from every state in the union and every province in Canada. Many of these are from prominent people in this city and section and have been previously published in this paper.

Tanlac is sold in Danville by Jacob's Drug Store—adv.

BODIES OF TWO MORE VICTIMS RECOVERED

GATES, Pa., Feb. 3.—The bodies of two more victims of yesterday's explosion in the Gates mine of the H. C. Frick Coke company, were brought out late today. So far 24 bodies have been recovered, and mine officials said they believed all the bodies would be found only once more.

ARRANGE FOR CREDIT

WASHINGTON, Feb. 3.—Arrangements to furnish a credit of \$100,000 marks to the Russian Soviet government to cover purchases by the Soviet trade department have been made by a group of German manufacturers, according to a report from Commercial Attaché Herring in Berlin.

MISS NELLIE COLLINS

"I have been thankful a thousand times that I took Tanlac when I did. It is simply wonderful the way it has benefited me," said Miss Nellie Collins, 1330 Connecticut Ave., Bridgeport, Conn.

"About eighteen months ago my appetite began to fail and I seemed to be going into a decline. Nothing agreed with me and my nerves were keyed up to such a high pitch I was actually afraid they would snap in two.

"But Tanlac has brought about a wonderful change in my condition. My appetite is almost revenous, my digestion is perfect and I feel as well and strong as I ever did in my life. I never dreamed there was as grand a medicine as Tanlac in the world."

WILBUR'S PHILOSOPHY.

Wilbur Glenn Voliva, supervisor of Zion City, where personal freedom is dictated by the doughty overseer, is again in the limelight. A graduate of the New School of Intelligence, Wilbur is expounding his doctrines apparently without any misgivings or the fear of contradiction. The world is flat, he proclaims, the Heavens are held up on walls of ice and the stars in all their glory are just so many little lamps clamped to the celestial vault, the sun and the moon having just so much additional candlepower. The oceans, he explains, are impounded by the walls of ice at the edge of the world which prevent the great seas from draining away into space.

Just how many citizens of Zion cling to his theories is not recorded but since he rules the roost with no uncertain hand it can be expected that he has his followers. One thing is certain, however, and that is that if his belief in things eternal is as childlike as that in the aspects of the material world his chances of ultimate salvation are good, better perhaps than many of us tempted to outgrow the simple faith.

PARAGRAPHS.

Two nice things about radio sermons are: No collections, and on getting sleepy you can turn a switch.

Lots of so-called will power is won't power.

The big Montana lake that will be dry in 1000 years must be racing the rest of the country.

Health hint: When you lose your health it's hard to find.

Valentine day will give us a chance to say something to the landlord without getting caught.

"Let's go to bed" is father's after dinner speech.

Two New Yorkers who wondered if they could rob a house without getting caught found they couldn't.

Farris says spring nights will be short. Maybe that's so they will match Pullman blankets.

Only eleven more shopping months until Christmas.

If we could only leave the income tax blank that way.

Two divided by one equals divorce.

What is so rare as a June day in February?

Congress Upset—headline. Natural for it to turn turtle.

All the world shoves a shover.

Europe won't be settled until her debts are.

Health hint: Eat on her cooking.

A lot of people won't be content with our lot even if it was a lot.

ROANOKE WANTS FLORIDA MAN

ST. PETERSBURG, Fla., Feb. 3.—C. M. Trux, who has been engaged in the bond and mercantile business here for the past two months, was arrested today on a charge of felony following telegraphic information from Roanoke, Va. Local police had no details as to the charge, but Trux refused to talk except to say that he would wave extradition. The telegram from Roanoke stated that an offer had been made for this day to get Trux.

RECENTLY INDICTED IN THE MAGIC CITY

ROANOKE, Va., Feb. 3.—C. M. Trux, of C. M. Trux and company, and president of the Shewey Tire and Tire Company of the city, who was arrested in St. Petersburg, Fla., last week, was recently indicted here by a special grand jury in corporation court on three counts charging grand larceny and obtaining money under false pretense.

The police claim that Trux has not been seen in Roanoke for the last three months.

JAMES AHMUTY DEAD.

LYNCHBURG, Feb. 3.—James W. Ahmuth, 45, a native of Lynchburg, branch of the Corso-Dale Tobacco Corporation, died here today after a long illness. He was born at Blackstone, Mass., in 1871, and before coming to Lynchburg in 1912, was manager of several large mills in Alabama and North Carolina. Besides his wife, he is survived by one sister, and by his son, James Ahmuth, of Concord, N. H.

DIVINE SARAH WILL DESCEND TO THE MOVIES

LONDON, Feb. 4.—Sarah Bernhardt has accepted an offer of American motion picture interests to act for a series of photoplays, according to the London Times.

Scoop's Colylum

DRAKES BRANCH, February 4.—(Grapevine Wireless)—Last day of the last half of the week, the sun is shining brightly and the snow has melted and run into the river. Tomorrow is the first Sunday in the month and there is no valid excuse for remaining away from church. We didn't stand back and hesitate when we wanted to see the movie show during the snow storm, we just put on rubber boots and waded through the slush until we reached the bright lights and the jazz music. That's all.

THE FINAL EXAMINATIONS**MORE MORAL GUARDIANSHIP.**

(Richmond Times-Dispatch.)

The remarkable thing about it is not the number of miles you can get to the gallon but the amount of dust you can swallow to the mile, says Dr. Williams.

A little Grove street girl was shown her newly-arrived baby brother. Looking at him lovingly, she said: "When will he talk, mother?"

"Oh, not for a long time yet," replied the mother.

"But when?" persisted the child.

"Well, not for a year or so."

After thinking for a minute, the child exclaimed in surprise: "How funny! Miss Roberts read out of the Bible this morning that Job cursed the hour he was born."

FAILS TO SUPPLY HEAT TO TENANTS, CONVICTED.

COLLAPSES AND DIES

NEW YORK, Feb. 3.—Detectives

today paged their man in the lobby

of the Hotel Astor—and caught him.

The prisoner was Peter A. Robnett,

a stock broker of Whitehouse, L.

He was charged with having dis-

appeared from Albany after having obtained \$3,500 from a physician he had interested in an investment. He

was taken upstate to face a charge

of grand larceny.

FAILS TO SUPPLY HEAT TO TENANTS, CONVICTED.

COLLAPSES AND DIES

NEW YORK, Feb. 3.—Miss Sadie

Apfelbaum died in a hospital tonight

following her collapse in court this

afternoon while awaiting sentence for

failure to supply adequate heat to

tenants in one of her Brooklyn apart-

ments.

She was standing in front of

the restaurant, but he was faced in

the other direction. His flat, musi-

cular back was rigid. In his atti-

tude was a certain tenseness, as though his body was a bundle of

steel springs ready to be released.

Hart knew already that Dave had come back a changed man. He had gone in a boy, wild, turbulent, untempered. He had come out tempered by the fire of discipline. The steel-gray eyes were no longer frank and gentle. They judged warily and inscrutably.

They arranged an hour of meeting

at the Delmonico restaurant.

In front of the postoffice Bob met

Joyce Crawford. The young woman

had fulfilled the promise of her girl-

hood. As she moved down the street,

tall and slender, there was a light,

joyous freedom in her step.

"Miss Joyce, he's here," Bob said.

"Who—Dave?"

Hart knew already that Dave had

come back a changed man. He had

gone in a boy, wild, turbulent,

untempered. He had come out tempe-

red by the fire of discipline. The

TAKE UP METHOD TO FINANCE BONUS IN A FEW DAYS

Harding and Party Leaders to Confer on Definite Program

WASHINGTON, Feb. 3.—Ways and means of financing the soldiers' bonus will be discussed at a conference between President Harding and Republican leaders of the House and Senate early next week. It was stated today at the White House. It is understood that the various suggestions advanced will be canvassed with a view to determining upon a definite program.

A decision as to methods of raising the necessary revenue, reached in agreement between the administration and congressional leaders, would solve the most difficult problem before the House committee charged with drafting the additional compensation legislation and would be expected to speed up final enactment of the measure by removing what otherwise might prove subjects of serious disagreement between the House and Senate.

Members of the ways and means committee said today that the bill to be reported to the House, probably within two weeks, would provide for beginning the cash payments to the former service men on January 1, 1923. They said this would give time in which to raise the revenue and to pass upon the applications for the cash bonus.

Re-enactment of the excess profits tax as a method of financing the bonus was urged here by the ways and means committee today by Representatives Woodruff, of Michigan, and Brown, of Wisconsin, both Republicans. They said this was a just tax which would be more popular than some others. Opposition to such a proposal was voiced by some of the Republican members of the committee and in the colloquy that followed Mr. Woodruff declared that the repeal of this tax was "one of the most reprehensible acts ever committed by Congress."

Both Mr. Woodruff and Mr. Brown opposed any form of sales tax, as did previous witnesses, including H. C. McKenzie of Walton, N. Y., representing the American Federation of Labor.

Mr. Brown suggested that the treasury might be able to obtain considerable sums from the sources proposed in the original bonus bill offered by Chairman Fordney, such as slight increases in income surtaxes, stock dividends, and a tax of one-fifth of one per cent on the sales of stocks and bonds.

Representative Nolan, Republican, California, told the committee that was no need to levy any additional taxes to pay the bonus if Congress would cut down the army and navy appropriations, pointing to the agreement at the armistice conference for a full holiday, the scrapping of many existing ships. Mr. Nolan declared that great savings could be made in the cost of the naval establishment. He also urged that the army be cut to 10,000 men.

Opposition to the kind of cash bonus proposed was voiced by Rep. representative Griffin, Democrat, New York, a veteran of the Spanish-American war. He said the government as a cause proposition should return the money the soldiers paid in for insurance and family allotment. The vocational training and other plans should be put into force as a matter of justice, he added.

FIGHT EFFORTS TO INCREASE PRICE OF COAL NOW

NEW YORK, Feb. 3.—The League for Industrial Democracy, an organization of engineers, economists and labor experts, today launched a movement to block any attempt upon the part of the coal operators to increase the price of coal to cover wage increases demanded by union miners.

It was announced at the headquarters here that a committee of experts were being formed to investigate the relief of the price of coal to labor and other production costs.

"A strike of anthracite coal miners will result April 1 unless the present controversy is adjusted," asserted Harry W. Laidler, director of research. "Behind this controversy is an open-shop attack on the union itself and the principles of collective bargaining."

Mr. Laidler quoted news dispatches which reported that some coal corporations were paying dividends of from 100 to 220 per cent annually saying:

"The entire coal industry should be thoroughly investigated so that the public can get at the facts. At the present neither the miners nor the government have access to these facts."

MARTIAL LAW ZONE EXTENDED

TEAGUE, Tex., Feb. 3.—Federal military forces directed from an airplane, marked extension of martial law in Freestone county today. Hardly had it become known that martial law had been extended than an airplane appeared flying low over the wooded sections of the new territory under command of the State militia. Signals were given from the airplane and State rangers, working in conjunction with the State guardsmen and prohibition enforcement officers went almost directly to spots where they say they found seven stills and made about 50 arrests.

There was no effort to interfere with the airplane's work of directing the raiders except one when a single shot was fired at it from a thicket.

Martial law was declared in effect in the Mexia oil field about the middle of January. Gov. Noff setting forth in the declarations that State aid was needed to stop lawlessness.

ETTER BUSINESS CONDITIONS EXPECTED

WASHINGTON, Feb. 3.—Indications of better business conditions generally in the principal South American countries were reported to the commerce department today by its representatives in that of the world. In Mexico, however, the economic situation was said to be unchanged.

Mrs. E. W. MacBrayne has left Danville to join her husband in Baltimore where they will make their home.

FORMER BUTLER OF MURDERED MOVIE DIRECTOR SOUGHT

Efforts to Solve Los Angeles Mystery Killing Continue.

LOS ANGELES, Feb. 3.—A motion picture actress whose name has not been publicly mentioned so far in connection with the slaying Wednesday night of William Desmond Taylor, film director, was the center late tonight of the investigation of the deceptions detailed to the case.

LOS ANGELES, Feb. 3.—Efforts to solve the mystery surrounding the murder of William D. Taylor, international motion picture director, were directed toward locating Edward P. Sands, formerly employed by the dead man as butler.

At least two persons have told the police they saw Sands in Los Angeles within the past week. Another stated Taylor had declared he saw the missing butler within a few days of the tragedy. The police expressed interest in whether Sands had actually been here, and if not, why such statements were made concerning him.

Sands had been sought for several months on a complaint of forgery made by Taylor. The director charged that the butler disappeared, forging his name to a check and that money and other valuables disappeared at the same time.

The police adhered today to the theory that Taylor was slain for revenge, checking of his possessions, indicating that nothing was taken by the person who apparently surprised him in his home and shot him in the back, leaving the body to be found Thursday morning by a servant.

Close acquaintances of Taylor in motion picture circles were today subpoenaed to testify at the inquest. This is to be held tomorrow at a local undertaking establishment. Those summoned included Mabel Normand, film actress, who called upon Taylor early Wednesday evening; Mary Miles Minter, another actress who formerly was directed by Taylor; Edna Purviance, leading woman, and Douglas McLean, actor, neighbors of Taylor; Charles Maigne, a motion picture director, and Charles E. Yeran, manager of the Famous Players-Lasky studio of which Taylor was director-in-chief.

It was established that the bullet taken from Taylor's body was of .30 calibre. The missile was turned over to firearms experts for further investigation.

Search for a man, Mrs. MacLean, wife of the actor, told the police she saw lurking about the Taylor place Wednesday night continued. The description given by Mrs. MacLean did not tally with that of any one who had been mentioned in connection with the case. Mrs. MacLean fixed the time she saw the man as between 8 and 9 o'clock. She and neighbors told of having heard a noise like a revolver shot about 8:15 p.m. A street car conductor said a man whose description tallied with that of the one seen by Mrs. MacLean boarded his car near the Taylor residence about 9.

Details of what the police learned were not made public, but it was stated that information as to Taylor's goings and comings had been gleaned through questioning Howard Fellows, his chauffeur, and Henry Peavey, negro houseman.

It was after the prolonged questioning of these men that the officers announced it was of the "utmost importance" to find Edward F. Sands, former butler for Taylor and sought for several months on a warrant charging forgery in which the dead director had sworn.

Some of the officers, it developed, still were of the opinion that the revenge theory was tenable.

While the coroner was perfecting plans for the inquest tomorrow morning members of the motion picture directors' association announced that the funeral would not be held until next week. Final arrangements it was said, would not be announced.

Some of the officers, it developed, still were of the opinion that the revenge theory was tenable.

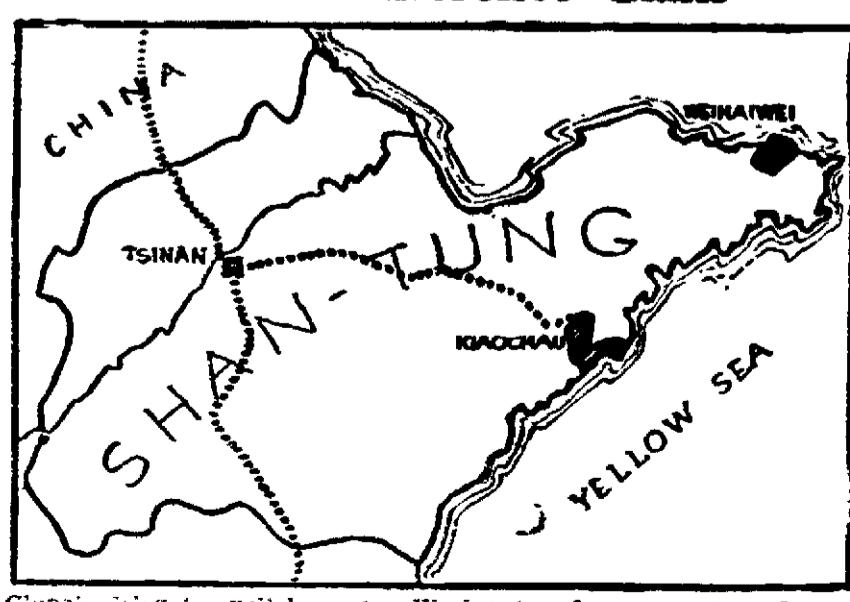

BOLD THIEVES ARE BALBED

NEW YORK, Feb. 3.—Screams of a young woman, the scattering of money over the sidewalk, cries of "stop thief" and the sight of a crowd in pursuit of two bold men—lured pedestrians in Times Square this afternoon.

Laura Latin, 20, was carrying \$1,000 payroll money from a bank to the office where she worked when she felt two men tugging at the case containing the cash. They tore open the case, notes spread over the pavement, and the crowd chased them as they ran. A policeman caught John Mills, 17. The second man escaped. Most of the money was recovered.

Clyde A. Barker is confined to his home on Clinton street by reason of serious illness.

China's Conference Gains

China's Shantung railway line. Washington's conference with assurance of the return of Shantung by Japan, with various territorial and property rights in the province. Besides, the former German holding of Kiaochu, which Japan seized at the beginning of the war, goes back to China. Wei-hai-wei, British leasehold since 1898, also will be given up to China, and the Shantung railway, shown by the dotted line on the map, which has been the center of controversy with Japan, will finally return under Chinese control.

FAILS TO RECALL OTHER EVENTS

NEW YORK, Feb. 3.—Eleven-year-old Anna Hess tonight testified to assaults alleged to have been committed upon her and her companion, Alice Ruck, 15, by George L. (Tex) Rickard at a resumption of the sports promoter's trial in the night court. The attacks, she said, were made in the tower of Madison Square Garden where the promoter maintained an office and an apartment, and in an apartment on West 46th street, near Fifth avenue.

Under cross-examination by W. Steuer, counsel for Rickard, the girl broke down and wept when questioned relative to another case in which she had appeared as complainant against two men similarly charged. She told counsel that she didn't remember anything about the two men in question. When the attorney pressed her with questions in an effort to refresh her mind, she said: "No matter what you ask me about the two men named in the other case, I don't remember anything about them."

The hearing started shortly before 9 o'clock and was still in session at midnight.

The State tonight completed presentation of its case against George L. (Tex) Rickard, sports promoter, charged with having assaulted Alice Ruck, 15, and Anna Hess, 11.

Max D. Steuer, Rickard's counsel, then asked dismissal of the charges on the ground of insufficient evidence.

The court set February 11 as the date for arguments on the motion.

SIX-CENT FARE RANTED WITH A NEW FRANCHISE

RICHMOND, Feb. 3.—By a vote of 8 to 2, the board of aldermen this afternoon adopted a resolution giving the Virginia Railway and Power company a six-cent car fare until a new franchise is granted the company, providing the company reinstates enough of its former employees to fill its rank by February 6, with seniority "according to experience" and at a wage scale of 35, 37 1/2 and 40 cents an hour, according to seniority.

Representatives of the strikers declare the proposal of the board is not acceptable to the men and will not be until all of the men are included in the proposition. Union men declare the contract encompassed in the resolution does not guarantee, or even offer the men their old places at their former seniority rates, but may be interpreted to mean that they will all be taken back as first year men. They are of the opinion that the board has done nothing toward solving the situation.

FOUR HUNDRED SOLDIERS COME

NEWPORT, Ky., Feb. 3.—All of the four hundred Kentucky national guardsmen who were ordered to Newport yesterday by Governor Edwin P. Morrow to take control of the strike situation at the Newport Rolling Mills, reached the city this afternoon and night, and were assigned immediately to the duty of protecting life and property around the plant.

Before the last of the companies had reached the city early last night—giving the contingent a full force of cavalry, infantry, machine-gun and tank units—arrangements had been made by Maj. Gen. W. M. Acting commander of the Kentucky National Guard to hold every inch of Newport both day and night, until further notice, he announced.

This means, it was said, that the cavalry and automobile patrols will be used in guarding those parts of the city at a distance from the mill, while the infantry companies will be stationed at the plant, which has been the center of recurring strike disorders for the last two months, the most serious of which have occurred within the last few days, culminating early today in an exchange of more than 1,000 shots between strikers and troops on guard at the mill.

It was after the prolonged questioning of these men that the officers announced it was of the "utmost importance" to find Edward F. Sands, former butler for Taylor and sought for several months on a warrant charging forgery in which the dead director had sworn.

Some of the officers, it developed, still were of the opinion that the revenge theory was tenable.

AMERICAN DOGS STILL IN LEAD

LANCASTER, N. H., Feb. 3.—Five well-matched Eskimo dogs, owned and driven by Arthur T. Walden, of Walonaceton, N. H., and five rangy mongrels piloted by Jean Lebel, of Berseimis, Quebec, will swing back to Berlin tomorrow for the last lap of the 120-mile international dog race.

The American's dogs enjoy an advantage of 20 minutes, corrected time, over their Canadian rivals as a result of their hard push over the 36 miles of snowy roads from Colebrook today. Lebel's dogs were first in for the night's stop, but they had not been unharnessed before Walden's huskies trotted into the square, just three minutes behind them. Walden, starting half an hour after Lebel this morning, had made up 27 minutes on the trail. Both drivers reported the going as only fair.

Approximately 4 hours behind the leaders—so far as to cause their driver practically to abandon hopes of winning—Jacques Suzanne and his team from Lake Placid, N. Y., swung into Main street.

The team of Henri Skene, of L'Outre, Que., was not in the traces today, as the dogs were suffering severely from frost bitten feet and were withdrawn.

Sailors associate the screaming of seals with windy weather.

Whip-poor-will's call is said to be a sure sign of fair weather.

This Measures Distances Up To 22 Miles

The latest scientific marvel is a range finder which accurately judges the distance of any object at a maximum of 22 miles. It was built by Barr and Stroud in London and will be used in British coast defense. The tube is 100 feet long and moves on a circular track.

SAFETY FIRST FOR THIS NEGRO

INFORMATION ON SHIPS SOUGHT BY HARDING

It is probable that there may be a suspension of work on all of the prescribed vessels within a few days.

It was said at the White House today that Mr. Harding expected to submit the naval agreement and the other treaties of the arms conference to the Senate within a very few days after they are signed. He has not decided whether to take them to the capital in person.

Lincoln, Neb., Feb. 3.—Mrs. Maude Bambina Delmont, who figured in the first Arbuckle trial, is being held in the Lexington county jail in connection with the fatal shooting yesterday afternoon of Sid M. Price, a white man.

DANVILLE NOW HAS WON THREE STRAIGHT GAMES

BURLINGTON, N. C., Feb. 3.—Three straight wins and not a single defeat is now the record of the Danville High school quintet, which defeated the local high school here last night by the score of 34 to 18. Burlington never had a chance to win, Danville taking the lead at the start and never being headed. Danville leaves here for Melton, where the team will play tomorrow night.

BODY OF MAN FOUND HANGING IN BOX CAR

RICHMOND, Feb. 3.—Police were this afternoon investigating the finding of the dead body of a white male in a box car of the Atlantic Coast Line railroad, near Falling Creek. The body was hanging from the ceiling of the car.

TWO MORE ARRESTS

LEXINGTON, S. C., Feb. 3.—Two more men, one white and the other black, were arrested late today and are being held in the Lexington county jail in connection with the fatal shooting yesterday afternoon of Sid M. Price, a white man.

America and the World Peace

By RAY STANNARD BAKER

THE Secret Minutes of the Big Four at the Paris Peace Conference, brought home by Woodrow Wilson in his Steel Box, contains no debates more spirited than those concerning the Disarmament of Small Nations.

Ray Stannard Baker, whose story written from the Wilson records is appearing serially every Sunday in The Danville Register, quotes from the minutes a speech of Lloyd George telling how the weak nations could not be kept from warring if they were permitted to have armies.

Yet the Conference, after much squabbling, failed to agree on abolishing those armies! Wilson tried in vain to find a way. The French stuck to their idea of surrounding Germany with a circle of weak States, all armed. The British showed an attitude of sharp impatience toward the small States. The little nations themselves would listen to no argument that they should disarm, as each was afraid of the other.

The story, as narrated from the Secret Minutes, is one of continuous interest. It is told in the

Would Figure In Coal Strike

MOTHER JONES

PITTSBURG, Kas., Feb. 4—If there's a general coal miners' strike this spring, "Mother" Jones, 87 years of age, a score of spectacular strikes will be one of the central figures. For wherever a mine worker's dispute develops, thither goes "Mother" Jones.

She spurred miners to activity in the bloody West Virginia disorders last summer. And right now the aged woman

is here encouraging several thousand Kansas miners who are on strike.

"Mother" Jones had been in Pittsburgh hardly an hour before she made a speech to miners and their wives.

"Mother" Jones is a favorite among strikers' families because of her motherly face and snow white hair.

"I use strong language," she says. "But that's the only way to get results."

Expressing his belief that an opportunity to cut rates would be had in about a year, Mr. Hoover, who was called as a witness by the United States Chamber of Commerce said it would be an "economic crime" if rate schedules were not revised to give basic raw materials much cheaper transportation as compared with finished and high grade materials.

WILL INTRODUCE BILL TO ACCEPT OFFER OF FORD

WASHINGTON, Feb. 3—General freight rate reductions are impossible at this time because of the impoverished state of the railroad systems of the United States, Secretary of Commerce Hoover testified today before the Interstate Commerce commission investigation.

Until rates come down and railroad expenditures for new construction and betterments climb up, Mr. Hoover declared, "the economic machine will move slowly." He added, however, that in his opinion, in which connection he mentioned wage scales must come down and railroad credit must be bettered before rates can be effectively reduced.

Most of the existing economy discussion is due to the social bias between the prices set by producers of raw materials and the prices paid out by consumers for finished goods, Mr. Hoover declared. Railroad rates like wages on their present basis increase, thus can be asserted, the cost of the lost purchasing power of the farm population.

Frank C. Clark, Times Building, New York.

Inquiry among residents of this city disclosed that the presence of the band had been known for some time and that failing to obtain any action from local officials a petition with several hundred signatures had been sent to Governor Hardee which resulted in today's raid.

Commissioners To Secure War Debts

WASHINGTON, Feb. 2.—(By the Associated Press)—Congress finally cleared the way today for the opening of negotiations looking to the refunding bill and the measure was sent to the president. Mr. Harding is expected to approve it as he did not press his objections to the Senate changes after he had discussed them today, first with Chairman Fordney, who is head of the commission of five authorized to conduct the negotiations with the debtor nations.

Appointment of the other four commissioners by the executive is looked for within a short time. It was made known today at the White House that Mr. Harding planned to name two members of the cabinet and a member each of the Senate and House. There was no indication at the White House who would be named, but among those mentioned elsewhere in connection with the appointments were Secretaries Hoover and Weeks, Sen. or Watson, of Indiana, and Representative Longworth, of Ohio.

While plans for conducting the negotiations with the debtor nations have not yet been formulated, it was said today in informed quarters that they probably would be conducted both in this country and abroad. There has been some discussion of the whole subject of war debts.

In this connection it has been pointed out that Great Britain advanced to its dominions and allies including France and Italy, approximately nine and one-half billion dollars, while France loaned nearly three billion dollars to its allies.

As finally enacted, the debt refunding bill was unsatisfactory both to the administration and Republican leaders of the House, but it was said that obligations were pressed because of the delay that would be involved in sending it to conference for the ironing out of differences between the two houses.

Chief objection centered on the Senate amendment requiring that the refunded obligations mature not later than June 15, 1947, and that the minimum interest rate be 4 1/4 per cent. Both the president and Sec. Mellon were represented as preferring a free hand for the commission as to the life of the bonds and the interest rate.

The treasury secretary was said to have held, however, that those limitations would not be insurmountable in the refunding of the debts of the larger nations and that if it should develop that they prevented the refunding of the debts of the smaller and newer nations the commission could seek additional authority from Congress.

In the discussion in the House Rep. Mondell of Wyoming, the majority leader and Mr. Fordney argued that the United States should not be in the position of imposing too great a time limit on the debtor nations or demanding what Mr. Mondell called "a round fat interest rate." They said that personally they favored imposing no restrictions on the commission.

A separate and record vote was had on the amendment carrying the restrictions as to maturity date and minimum interest rate and it was agreed to, 259 to 26 on a bi-partisan vote.

13 WIRE TAPPERS TAKEN IN CUSTODY

FORT LAUDERDALE, Fla., Feb. 13—Thirteen alleged wire-tappers were arrested here today in a raid conducted by sheriff's forces as the result of an investigation ordered by Gov. Cary A. Hardee.

Those arrested gave their names and addresses as follows: Harold Rosen, Lynn, Mass.; James Bowden, Charlotte, N. C.; John Ford and John Adams, Louisville, Ky.; Albert Ross, Detroit, Mich.; L. J. Sellers, E. Knox and Mrs. Francis Sellers, New York; Tom Tracy, Lexington, Ky.; William Backrow, Cincinnati, Ohio; John Moore, Portland, Me.; William Fenton, Kansas City, Mo.; Michael O'Flannigan, Huntington, W. Va.; and C. Watson.

A building occupied by the men and which was equipped for elaborate wire-tapping operations was raided by the officers headed by Deputy Sheriff S. H. Shackford, of Jacksonville, sent here to conduct an investigation. They seized a tin box containing \$6,000, counterfeit money presses and large quantities of spurious currency.

According to Deputy Shackford, the band came here about a month ago and leased a fashionable residence in the heart of the town overlooking the New River. The building, a two-story affair, was equipped on the order of a club on the first floor while the second story was fitted as a "Brokerage" office. The familiar blackboard bearing the caption "The Consolidated Exchange" was in place.

Inquiry among residents of this city disclosed that the presence of the band had been known for some time and that failing to obtain any action from local officials a petition with several hundred signatures had been sent to Governor Hardee which resulted in today's raid.

New Scheme Is Devised For Censoring

NEW YORK Feb 4.—Because they believe state censorship of plays would be fatal to dramatic art, members of the New York Drama League has launched a campaign for a voluntary censorship of plays by the outgoing public.

A plan evolved by Charles Coburn of the Producers Managers Association has been approved by playwrights, managers and actors. It would provide for an agreement between the play owners, producers of play and actor to the effect that any play deemed by a committee of six to be unworthy of being produced would be withdrawn without notice and without legal action.

Upon receipt of sufficient committees that can agree, the commission of the league would select from a panel of musicians chosen from the theater to witness and pass on the plays. Their decision would be final. The plan would be chosen by the various theatrical organizations.

A circular from the Drama League is in preparation to be sent to Albany in regard to the proposed state censorship bill.

The new plan would do away with a public given sign a play is the Drama League once suspended for a time but later reinstated for a new play on Broadway.

**T. C. Burnett
Dies In County**

SPRINGFIELD, Va., Feb. 4.—The citizens of this neighborhood were greatly shocked Thursday afternoon when T. C. Burnett died very suddenly. On Wednesday he was feeling very well, but Wednesday night he began to feel ill, there was suspicion that he was seriously ill. On Thursday morning he went to a telephone and called Dr. Grove and said his son, before noon soon after the doctor left he went to bed about 2:30 p.m. in the breathless list without talking or speaking.

Mr. Burnett, is born here, does his work and had always lived in his community about 70 years. He is married to Miss Mary L. Oates who survives him. His wife and three daughters survive all of them living in the family except Mrs. Carlton Barksdale of Brookfield, Va., and Mrs. Harry Adams of Lava, Va.

The funeral will be conducted by his attorney and the remains will be taken to rest in the Presbyterian church cemetery with which much of his life membership.

**Bluebeard Loses
His Final Appeal**

PARIS Feb 3.—The criminal branch of the court of Cassation today rejected the appeal on behalf of Henri Desire Landru from the sentence of death pronounced upon him last December.

Landru was convicted by the Paris court of assize court for the murder of 10 women and the son of one of them. The appeal to the court of Cassation was based purely on technical grounds. It alleged two errors in the procedure of Landru's trial at Vincennes. One of these was connected with the judge's interrogation of Landru and the other the failure to specify the profession of a certain woman whom Landru met on the first

**POINCARE READY
TO MAKE HIS REPLY**

PARIS Feb 3.—(By the Associated Press)—Premier Poincare appeared before the foreign affairs committee of the Senate today ready to answer questions concerning the Genoa economic conference. He said he was prepared to answer questions and had brought his papers with him and would give chapter and verse of everything he had advanced.

The premier declared plainly that he would not go to Genoa unless the program was clearly defined and conditions were unequivocally laid down.

Thus, for example, he pointed out the invitation to the Soviet government did not stipulate that it accept the conditions in the admission, it was only assumed that the coming of such a representative would signify adherence to the conditions.

That however must be clearly brought out

**Husband, Wife's Victim
in Home-Made "Movie"**

PHILADELPHIA Feb 3.—Mrs. Barbara Hanan is being technically held by the police and her husband Isaac Hanan is in the Misericordia hospital from a wound received when she attempted to imitate a "movie" scene with a loaded revolver.

The couple had returned from a walk in the park with their 16-year-old son, Bill Bain to shoot deer, said Mrs. Hanan as she laughingly picked up a revolver she did not know was loaded and pulled the trigger. There was a report and the husband fell across a earth bank streaming from a wound in his breast.

Hanan did not lose consciousness and his惊恐 wife was about to phone for a physician but he insisted to keep the incident from becoming known and convinced her that the wound actually serious was not. He then gave directions for an ambulance and bandaging.

The next morning Hanan, groaning with pain, came to the hospital and told the police Hanan has lost his right eye.

PROSPECTS OF A SURPLUS NOW

WASHINGTON Feb 4.—President Harding announced that instead of a budget in government finances now were prospects of a surplus of receipts over expenditures when the books are balanced at the end of next June.

The president further announced that he had been posed on the government's expenditures from a scale based on \$4,500,000,000 and a scale of \$3,974,000,000 and declared that even in the forthcoming period the budget system has just reached out into confident expectations.

More than a thousand officials from all the departments and establishments from the government met with the meager and received the report of the various coordinating transfers submitted by Director Dawes, whom the president described as the genius who made possible the cut in expenditure."

Shoots Young Woman; Pleads Self-Defense

SHREVEPORT, La., Feb. 3.—Walter J. Smith a construction foreman today shot and killed Catherine Johnson aged 26 and upon surrendering to authorities claimed he acted in self defense. The woman Smith stated came to his home on Douglas Island a suburb and displaying a pistol declared she was going to get him.

CHIROPRACTIC

Questions Answered in Plain Words

"WHAT IS DISEASE?"

What has been termed disease by writers of medicine upon close scrutiny is found to be nothing but a collection of symptoms. Disease means the lack of ease, DIS-EASE or NOT EASY. Any ABNORMAL CONDITION of the body disease and is usually expressed in terms of pain, suffering and general failure of the body to function as it should.

From a physical standpoint, suffering from a specific pain is not considered disease but in order to constitute a disease one must suffer from a certain combination of abnormal conditions at the same time. From a Chiropractic standpoint there is no half way mark between health and disease. If you are not ENTIRELY WELL in every respect you have disease whether it be toothache, sciatica, fever, a broken leg or a cold. So when we speak of the power of Chiropractic over disease we mean most acute, pain and abnormal condition to which the human family is subject.

Medical science (so-called) has advanced thousands of different theories as to the cause of disease, but without exception these theories have been exploded one after another. The most popular notion today is that there is a germ in every ailment, a point which has been given wide circulation AS TO THE CAUSE OF DISEASE. This is almost a universal opposition and has never been proved to be true.

Medicine has classified as germ disease many ailments for which specific germs have not been discovered. Germs supposed to cause deadly diseases have been found in large quantities in the bodies of healthy persons while others have died of these same ailments without a single trace of the diabolical bug being discovered. The same inconsistency is found with regard to vaccination and inoculation. Persons rendered "immune" have died of smallpox and typhoid while others who have never been vaccinated or inoculated have been exposed to these diseases without becoming ill. Thus far medical research has failed to discover single specific for either a disease or a cure.

Chiropractors believe that they have discovered the fundamental CAUSE of disease in nervous dysfunction which causes or controls cuts off the flow of vital force from the brain to all parts of the body through the nervous system. Our best reason for believing that this view is correct is the fact that subluxations or NERVE IMPINGEMENTS ARE INVARIABLY FOUND IN SICK PERSONS. We challenge anyone to demonstrate a SINGLE EXCEPTION to this rule. It has been further found that adjustment of the spine to normal position will relieve this impingement and restore normal function and that health is the result in 90 per cent of cases.

Chiropractors don't concern themselves with the names of diseases. They are content to have discovered the cause and know that by adjusting the spine health can be restored without the use of medicine or instruments of any kind.

Chiropractic has stood the acid test of results. For twenty-six years the number of its practitioners and adherents has been steadily increasing until today Chiropractors are found in every part of the world and millions of people have received their health in the cause of the science of Chiropractic. Disease of every nature, in every stage of development both acute and chronic, has yielded to adjustments.

Next Saturday Bee and Sundays Register "What Is Chiropractic Philosophy."

NOTE—Readers are invited to ask any question they wish in connection with Chiropractic, and the answer to the question will appear in these columns at an early date. Direct all inquiries by mail, phone or personal call to
